

Scientific Illustration in PowerPoint

Organiser: Jon Jieh-hen Tsung

Institution: Science Visionary B.V.

Description:

This master call will teach researchers to make scientific illustrations in the Nature publication style IN POWERPOINT! Yes, it is possible to make professional graphical abstract for free with the Office app. The skills of making graphical abstract have become increasing important for researchers, because the journals and funding institutions are starting to request these scientific illustrations from the authors. This master class will be taught by a scientific illustrator Jon Jieh-hen Tsung (MA in Scientific Illustration, Maastricht University). This masterclass has been given at UvA, VU and University of Oxford, and now there is an opportunity to bring it to WUR.

Theme: Mapping and evaluation of soil functions across scales

Keywords: Scientific illustration, scientific figures, manuscript preparation

Type of masterclass: Tutorial

**Introduction
Biomedical Illustration**
free workshop for drawing your research

Time: 17th FEB 2020
1800h-2000h
Sir William Dunn
School of Pathology
South Parks Rd, Oxford
