

# wageningen soil conference

— WORKING TOGETHER ON SOLUTIONS FOR A SUSTAINABLE WORLD —

## CALL FOR MASTERCLASSES

**August 23<sup>th</sup> - 27<sup>st</sup> 2027**

### **Wageningen - The Netherlands**

*Wageningen University & Research is delighted to invite you to join us at the fifth edition of the Wageningen Soil Conference. We aim to offer a range of scientific and interactive masterclasses in the afternoons, which was seen as a very valuable part of the 2023 conference. We hereby invite you to submit a proposal for such a masterclass.*

#### **MASTERCLASSES – The idea:**

Masterclasses are an excellent way to show and share your research, expertise and new tools or methods in an **interactive** way or to discuss emerging topics and promising research agendas. Note that they should not be regular (one-way) lectures. For ideas see descriptions of the [2023 masterclasses](#).

Examples:

- Hands-on tutorial of a soil model
- Laboratory training
- Field demonstration
- Topical discussions

#### **What we offer:**

- Facilities: (class)rooms, pc facilities, laboratory facilities, field sites
- Workshops may take up to 3 hours

#### **What we need to know from you:**

Please fill out the [online form](#) by **11 December 2026**, which includes:

- Title and short (max 150 words) description of your masterclass
- Maximum number of participants that you can host
- Room requirements and material that you need for the masterclass

**Questions?** Do not hesitate to reach out to us via [wageningensoilconference@wur.nl](mailto:wageningensoilconference@wur.nl)

You will hear whether your workshop can be hosted or not on 5 February 2027 the latest.
